**Architectural Model Maker** | 5+ Years Experience

---

**POST DATE:** 07/04/2019  
**CLOSE DATE:** open until filled  
**LOCATION:** Vancouver, BC

MGA | Michael Green Architecture is an award-winning mid-sized architecture and design firm working on a diverse range of ambitious, sustainable projects both locally and internationally. Michael Green founded the practice in 2012 to create meaningful and sustainable change in building through innovation in construction sciences and design. From our Vancouver studio, our exceptionally talented and experienced staff work on commissions ranging from tiny boutique interiors to large institutional buildings. We are passionate about our goals and strive to be leaders in our community through our work, research, and personal lives, and are always looking to make the best choices for the environment in our projects.

Current projects include a large sports and culture centre in Northern Sweden, high-tech offices in France and New York, innovative mixed-use residential projects across North America, advanced technology buildings in Silicon Valley, and custom homes here in Vancouver and around the world.

We are looking for an experienced **Architectural Model Maker** to help support the firm's continued growth. As a self-directed and independent member of our team, you will:

- Manage timelines, budgets, and manpower for the modeling team.
- Execute the management, detailing, and deliverables of all architectural models.
- Effectively communicate with design team, consultants, and external authorities.
- Research/develop new fabrication techniques.
- Be able to problem solve and find solutions to problems or modifications that may arise.
- Work closely with the design team within a deadline driven work environment.
- Provide mentorship to junior modeling staff.

**REQUIREMENTS:**

- Architecture degree or Architectural Technologist diploma from an accredited program.
- Minimum of 5+ experience in architectural model making over a broad range of project types.
- Expert level skills with various wood shop equipment and machinery related to creating models.
- Excellent working knowledge of AutoCAD and Sketchup is preferred.
- Self-motivated; ability to manage time well and work efficiently towards deadlines.
- Organizational skills and the ability to track versions of prototypes.
- Excellent written and verbal communication skills, with fluency in English.
- Experience working in the context of multidisciplinary project teams.
- Strong working knowledge of AutoCAD and Sketchup is preferred.
- Experience with 3D Studio Max, Vectorworks, and Revit are considered an asset.
- Collaborative and professional work ethic.
- Valid work status in Canada.

MGA is an equal opportunity employer. We offer a competitive salary and benefits package, and the opportunity to grow with our team in a collaborative and fun, open-office environment.

All applicants should submit a portfolio with CV and references to [jobs@mg-architecture.ca](mailto:jobs@mg-architecture.ca). Please specify job title in the subject line. No phone calls, please. Only those selected for an interview will be contacted.
