

Michael Green Architecture is an internationally recognized award-winning practice based in Vancouver, Portland, and Victoria. Our work is recognized for its leadership and innovation in mass timber design as well as socially sensitive and environmentally conscious development. MGA is a midsized firm with 25 staff. Current projects include a large sports and culture centre in Sweden, high tech offices in France and New York, innovative mixed-use residential projects in France, the US, and Canada, academic buildings in the US and Canada, as well as custom homes.

MGA is currently seeking a Senior Architect and an Intermediate Architect or Architectural Technologist to lead and support our current and upcoming projects in France. These positions are based out of our Vancouver studio. Preference will be given to bilingual applicants (French + English) with strong Revit skills.

SENIOR ARCHITECT | 10+ Years Experience

You are a creative Senior Architect with strong leadership skills. You are able to lead project teams through all phases of work, including collaboration and coordination with the design team, clients, consultants, and relevant authorities. This position requires someone who is self-directed and independent with strong collaboration skills and an approachable demeanor.

SKILLS REQUIREMENTS:

- Architectural degree from an accredited program.
- 10 + years of relevant architectural experience in a broad range of project types.
- Experience leading large projects.
- Strong organizational and leadership skills.
- Excellent technical, design, and graphic skills, with the ability to conceptualize and design complex projects from pre-design through construction documents phases.
- Self-motivated; ability to multi-task, manage time well, and work towards deadlines.
- Excellent written and verbal communication skills; fluency in both French and English is an asset.
- Experience working in the context of multidisciplinary project teams.
- Working knowledge of AutoCAD, Sketchup, Adobe Suite, Microsoft Suite (Word, Excel, Power Point, Outlook) and/or other design related software is considered essential. Revit knowledge is an asset.

Intermediate Architect or Architectural Technologist | 5+ Years Experience and Revit

You are an experienced Intermediate Architect or Architectural Technologist with strong technical skills to support the firm's continued growth. The position supports our senior design team through all phases of our work, including collaboration and coordination with the design team, clients, consultants, and relevant authorities.

SKILLS AND REQUIREMENTS:

- Architecture degree or Architectural Technologist diploma from an accredited program.
- Minimum 5 years of relevant architectural experience working on all project phases (concept design through CA).
- Excellent design and graphic skills.
- Self-motivated; ability to manage time well and work efficiently towards deadlines.
- Excellent written and verbal communication skills; fluency in both French and English is an asset.
- Experience working in the context of multidisciplinary project teams.
- Strong working knowledge of AutoCAD and Sketchup is preferred. Revit knowledge is an asset.

Preference for both positions will be given to bilingual applicants (French + English) with strong Revit skills. MGA offers a competitive salary and benefits package, and the opportunity to grow with our team in a collaborative, open-office environment.

All applicants should submit a portfolio with CV and references to jobs@mg-architecture.ca
